

Product Information:

MULTIVIS ECO PC 0W-30 **SYNTHETIC TECHNOLOGY - FUEL EFFICIENT**

Description

Multivis ECO PC 0W-30 is a new generation passenger car engine oil formulated and developed for the latest PSA petrol and diesel engines, including hybrids. The low viscosity grade of 0W-30, not only promotes fuel efficiency under a range of driving conditions, but ensures rapid circulation in stop/start operation, even when the engine is cold.

Multivis ECO PC 0W-30 will support the operational efficiency of the engine by protecting components from wear and keeping them clean. The formulation is also carefully balanced to ensure after-treatment devices, including diesel particulate filters (DPFs) and catalysts, are fully protected.

Multivis ECO PC 0W-30 provides:

1. Increased engine efficiency, output and improved fuel economics.
2. Outstanding cold temperature flow rates and high temperature film strength.
3. Low levels of volatility.
4. Superior thermal stability, improved engine cleanliness.

Applications

Recommended for use in the latest PSA engine designs, including BlueHDi and Puretech units and those employing electronic stop/start technologies.

Performance Levels

PSA B71 2312

ACEA C2

Physical Characteristics

Viscosity @ 100°C, cSt.	9.58
Viscosity @ 40°C, cSt.	53.86
Viscosity Index	164
Density @ 15.6°C	0.842
Flash Point (Closed) °C	180
TBN, mg/KOH/g	6.2
Pour Point, °C	-40

Figures based on average production values.
